Part XXV. Bulletin 1213C Minimum Standards for School Buses

Chapter 1. Purpose

§101. Introduction

A. One of the most important functions of a school system's operation relative to pupil transportation is the purchasing, operation, and maintenance of safe school buses. This bulletin is designed to provide School Boards with a list of minimum standards which would allow for safe transportation of pupils. It enables bus dealers to bid competitively based on uniform standards which meet minimum specifications for every school district in the state. In addition, Optional Equipment Standards have been made a part of this bulletin in order to assist transportation officials in designing school buses which meet their specific needs.

B. The Department of Education is especially indebted to these Transportation Supervisors who have donated their valuable time and effort to the revision of this important document.
